How do I use this ring template?

Print this document.

Fold the paper along the dashed line.

Cut out semicircles along the circular lines, as precisely as possible.

If you then unfold the paper again, you have your finished ring template.

Carefully stick your finger, on which you want to wear the ring, through the various cutouts.

The cutout should gently enclose your finger and may tighten a bit on the ankle.

When you have found the right cutout, simply read the ring size (above the cutout).
